GOV. HARMON GETS A ROAST

Cincinnati Enquirer Doesn't Like Him.

Says When Next Big Political Deal Comes In National Game Ohio Will Say "I Pass"—Declares That Bryan Is Political Dictator and That Harmon Does Not Fill Description of Man Wanted by Bryan.

Cincinnati, Jan. 15.—That Gov. Judson Harmon, of Ohio, is not at all acceptable to the Cincinnati Enquirer for President of the United States, and that the owner of that newspaper, who also owns the Washington Post, will contest this nomination, is seen again today, when James N. Faulkner, the Columbus correspondent for the Enquirer and the real political dictator behind all its moves, comes out with another blast at Harmon's ideas of running for the Presidency.

Faulkner says that when the next big political deal comes around in the national game of poker and Ohio is asked to waive her rights for the Presidential nominee, Ohio will mutter two words, to wit: "I pass."

He says that William Jennings Bryan is the real dictator of the party and will say who will be chosen by the Democrats.

His next paragraph reads:

"In the first place, William J. wants no man acceptable to the trusts. Whom does that let out, brethren? Next, he must not be close to the railroads. Who goes into the discard, people? Again, he must not have a speaking acquaintance with the protected interests. Whose goat does that get, men of Ohio? Lastly, he must not have the taint of the support or the friendship of the liquor interests. Who is flung down by this harsh impregnation, fellow-electors? Is it possible that this party in Nebraska is cracking down on one of Ohio's favorite sons? Verily, it looks that way. Even Tom L. Johnson would not pass must if these things were enforced against him."

This is the second slap which has been taken, in the most prominent Democratic newspaper in Ohio, against Harmon. For Harmon is the man who is thought to be acceptable to the trusts and the railroads, inasmuch as he was and still is the attorney for several railroad trusts in Ohio, including J. P. Morgan & Co.

He is also said to have promised the liquor interests so to amend the liquor laws of Ohio that they will be perfectly acceptable to those men. In fact, the legislature has a majority of "wet" votes, which are thought to be able to pass any legislation that faction of Ohio politicians desire.

The Enquirer has never been real friendly to Harmon—that is, in Faulkner's letters to it—since away last spring. At that time Harmon gave Faulkner an interview on some important topic and Faulkner wrote it. After it was published Harmon's friends jumped on him for saying it, and Faulkner had to write his paper denying the Governor's word on this matter. Ever since which Faulkner has called the Governor "Uncle Jud" and other names similarly benignly.

Then, after Harmon is said to have refused to stand by his former friend, John R. McLean, in the Senatorial race, the paper printed a scathing editorial against him and said that any man who backs down on a promise will never get anywhere in the gift of the American people. That was last Wednesday morning.

Similar attacks are looked for and also the support by this paper in the fight which Edward W. Hanley, of Ohio, will make against Harmon in the race for the nomination before the Democratic National Convention.

Governor Harmon leaves Columbus tomorrow afternoon for Baltimore, where he will speak at the Jackson day celebration.

Engine Breaks Down.
Winston Sentinel: The engine of an outgoing freight train this morning broke down this side of Kernersville. The engine of the incoming passenger train from Greensboro had to pull the freight to the siding at Kernersville before the passenger train could get by. The accident was responsible for the delay in the arrival of the morning train from Greensboro.

THE SLIMS WINNERS IN BOWLING CONTEST.

Won From Picked Team Last Night by a Majority of Seventy Six Pins—Clapp Led the High Score, Making 493—A Close Contest.

That the Slims know how to bowl was evidenced last night when a picked aggregation of the leaner bowlers of the city went up against a picked team from the other bowlers of the city. The final score was Slims 2,243; Picked team 2,167, the former winning by a margin of 76 pins. The contest was pulled off in the Gem bowling parlors and a large band of rooters were on hand to cheer for their favorites.

The contest was a close one and hotly contested, nevertheless. In the first two series of the game the Picked team was all smiles, winning the first by a margin of 9 and the second by a margin of 16 pins. However, in the last of the series the Slims drew themselves up to the summit of their height swelled all muscles into strenuous use and rolled up a majority of 101 pins, setting a majority of 76 over their opponents.

Clapp, of the picked team, carried off highest honors, making a total score of 493. Clegg and Knight, of the Slims, came second with scores of 480 each. The official score follows:

| Slims | 1st. | 2nd. | 3rd. | Total |
|-------------|------|------|------|-------|
| Knight | 144 | 152 | 184 | 480 |
| Mitchell | 133 | 129 | 162 | 424 |
| Shields | 145 | 143 | 181 | 469 |
| Hartscock | 154 | 124 | 112 | 390 |
| Clegg | 163 | 160 | 157 | 480 |
| Totals | 739 | 708 | 706 | 2243 |
| Picked Team | 1st. | 2nd. | 3rd. | Total |
| Weatherly | 155 | 170 | 137 | 462 |
| Clapp | 180 | 160 | 153 | 493 |
| Sellers | 133 | 146 | 153 | 432 |
| Reitzel | 112 | 139 | 127 | 378 |
| Stockard | 168 | 109 | 125 | 402 |

MARRIED IN WINSTON.

Greensboro Couple Go to Twin City to Wed—Off to Roanoke.

Winston Sentinel: Mr. R. P. Ballinger and Miss Ethel A. Pruitt, two popular young people, arrived here this morning from Greensboro. They went direct to the register of deeds office and applied for the necessary papers to become husband and wife. These were secured without delay and at 10:45 Rev. Edward S. Crosland appeared upon the scene and performed the ceremony in the presence of a few witnesses. Mr. and Mrs. Ballinger left on the afternoon train for Roanoke to visit the bride's sister, Mrs. James Harvey, who was married last week. They will return to Greensboro next week. The groom has only one arm, having lost the other one in an accident some years ago.

Aldrich Passes Through?

Washington, Jan. 16.—Senator Aldrich left here today for southern points to recuperate his health. He has been suffering from a mild attack of the grippe. His destination was not announced.

A special train, consisting of a combination car and two private cars, passed through Greensboro at 9:40 last night. The train did not stop before the first train, the dispatchers state, to ignore Greensboro in years by failing to stop. A dispatcher stood on the platform and handed out orders with one hand and grabbed them up with the other as the special dashed through. None of the railroad officials knew the occupants of the special, but it is quite likely that Senator Aldrich was in sleeper. The train was turned over to the eastern district at Salisbury.

Cowles Goes To See Taft Again.

Washington, Jan. 16.—Congressman Cowles has an engagement with President Taft this afternoon at which time several patronage and party matters will be discussed. The President is apparently seeking light from several sources before disposing of the district attorneyship and other appointments.

MASS MEETING WILL BE HELD

To Protest Against Formation of County.

Steering Committee Calls Meeting of Citizens of County Who Are Opposed to Piedmont County For Saturday, January 28—Urged That Every Person Opposed to Measure Attend This Meeting—Another Good Reason Given.

The steering committee, appointed Saturday to direct the fight against the Piedmont County movement, met yesterday and issued a call for a mass meeting of those opposed to the county to be held at the court house on Saturday, Jan. 28, at 12 o'clock. The call follows: "The citizens of the county of Guilford who are opposed to the dismemberment of the county and the formation of a new county out of portions thereof, are called to meet in the court house in Greensboro on Saturday, January the 28th, 1911, at 12 o'clock noon for the purpose of taking such action as they may deem best to prevent any division of old Guilford.

"Do not rely upon your neighbor or others, but attend this meeting, as it is of great importance to the people of the county.

"R. R. King, G. S. Bradshaw, A. M. Seales, Jno. N. Wilson, E. J. Justice, E. P. Wharton, E. G. Sherrill, R. D. Douglas, O. L. Sapp, J. R. Gordon, Committee."

At this meeting, as stated above, it will be decided as to what action should be taken regarding the maintenance of a lobby in Raleigh and the appointment of committees to go before the legislative committee and set forth the reasons for the opposition.

Mr. John C. Kennett went to Raleigh yesterday afternoon on business and while in the capital city he will call upon the committees and present the members with some facts and figures that will have a tendency to cause them to make a thorough investigation before making recommendations regarding the matter.

Before leaving Mr. Kennett stated that one of the principal reasons why the new county should not be formed had not been brought out. At present there are 120 representatives in the legislature, the maximum number. The constitution stipulates that each county shall have at least one representative and the formation of the new county would mean that one of the counties now having two representatives would hereafter get only one. And from a local standpoint it would be well to remember that in all probability Guilford will get three representatives, because of her large increase in population, whereas if the new county is formed Piedmont county might get one of Guilford's representatives, leaving Guilford with her large population and great resources with only one representative and no more prestige in the legislature than a small county with only a few hundred population. This fact should cause the legislators to consider carefully before creating any additional counties, Mr. Kennett declared.

NEW OFFICERS

Installed by Greensboro Lodge, No. 80, K. of P.—Fine Showing.

At the regular meeting of Greensboro Lodge, No. 80, K. of P., last evening, Lodge Deputy Jas. F. Smith installed the following officers: C. C. J. W. McLenan; V. C. Edgar Smith; Prelate, W. F. Low; K. of R. & S. C. C. McLean; M. of F. E. Poole; M. at A. M. M. Boyles; M. of Ex. A. A. Johnson; I. G. J. E. Webb; O. G. C. L. Jenkins. The reports of the officers for the six months ended were made and showed the lodge in a most prosperous, number members now on the roll 335.

FIGHT AGAINST THE HOOKWORM

Summary of Results in This State.

Dr. Ferrell States That So Far Fourteen Thousand Cases Have Been Treated—Three Men in Field—Meeting of Municipal Association in Raleigh An Important One—Mr. Page to Speak on Good Roads.

Raleigh, Jan. 16.—Dr. Jno. A. Ferrell, in charge of the campaign against hookworm disease in this state, issues a summary of results of activities against the hookworm in this state to January 1 that shows 14,000 cases treated, \$50,000 people, approximately, informed about hookworm diseases and remedies by lecturers; 33,162 school children reached by talks and visits of health representatives, with reports from 836 of the physicians of the state concerning hookworm disease in their sections. Dr. Ferrell reports three men in the field in three of the nineteen districts into which the state is divided for fighting hookworm diseases and declares that a man is needed for each of these districts. They contain an average of five counties to the district. There have been, according to this summary, 5,552 microscopic examinations for hookworm and 43 per cent have been found to be infected. He reports that a clipping agency record for the last three months of 1910 shows that newspapers of the state devoted 4,000 inches of space to news and items relative to the hookworm campaign.

The meeting of the North Carolina Municipal Association which convenes in annual session here Wednesday is expected to be one of the most important ever held by this organization. The problems of city government have aroused more interest during the past year than perhaps ever before and is endorsed by the large number of municipalities that are now planning to make some change in their form of government. Most of these are contemplating the commission form of government as the only solution of their problems but as that form has never been tried under the constitution and laws of this state there are many details in connection with its adoption that the various citizens are anxious to hear discussed. The association will meet Wednesday and Thursday and Friday a committee will put into fine shape the general bill authorizing any city in the state to decide at an election to be held for that purpose whether or not it wants the commission form of government. This measure is to be general in its terms, and is designed to provide for smaller cities. The larger ones will probably all desire special provision in their new charters suit to their own particular needs.

Representatives from all the larger cities and many of the smaller town in the state will be here and they will include mayors, aldermen, city attorneys and other officers of municipalities. The senate devoted the time of its brief session today to local matters, nothing of general state interest coming up for consideration. The bill relating to fishing in Albemarle Sound passed and the senate adopted a joint resolution inviting Logan W. Page to address the general assembly on "Good Roads" Thursday evening, January 26th, in the hall of the house.

The senate met at 12 o'clock, Rev. Wm. McC. White, of the First Presbyterian church, offering prayer.

Senator Sikes of Wake, offered a resolution authorizing the board of public buildings and grounds to have Blount street paved in front of the governor's mansion. Referred to the committee on public buildings and grounds.

DEATH OF MRS. HALL.

Mother of Mrs. Wetmore Passed Away Suddenly Yesterday Afternoon.

Mrs. Joanna Hall died yesterday afternoon at 2:40 o'clock at the home of her daughter, Mrs. W. H. Wetmore, 216 South Eugene street, death being caused by paralysis of the heart.

Mrs. Hall was 77 years of age and is survived by three children, Mrs. W. H. Wetmore and Mrs. Disoway Swain, of this city, and Mr. G. B. Wetmore, of Woodfield, N. C.

The remains will be taken to Fayetteville Wednesday afternoon for interment, the funeral to take place Thursday morning.

FAMILY LAUNDRY IS BURNED DOWN

Fire of Unknown Origin Destroyed Building Formerly Occupied by Centenary Church This Morning—Was Occupied by Mr. T. A. Branon, Who Operated Family Laundry—Loss Several Thousand Dollars.

Fire of unknown origin completely destroyed the Family Laundry on Arlington street this morning, only the walls of the building being left standing. In fact a portion of the walls fell in. The laundry was conducted by Mr. Thos. A. Branon and was in the building formerly occupied by the Centenary church congregation. The loss will amount to several thousand dollars.

The fire was discovered about one o'clock and an alarm sent in from box 53. The firemen were soon on the scene, but the fire had gained such headway that it was impossible to save any portion of the building. All the contents were burned.

Mr. Branon had about 35 washings in the building, 25 being from G. F. College. It being Monday night he had fewer washings on hand than usual. He had recently fitted the plant with new machinery and this was destroyed. There was no insurance on the machinery and plant. It is not known as to the insurance on the building.

The building, as stated above was formerly occupied by the congregation of Centenary church, having been erected as a house of worship. When the congregation erected a new church the old edifice was disposed of and for a time was occupied by the Hudson Over-all Company, later by Mr. Branon.

MORE DOUBLE TRACK

The Southern Will Secure An Addition of Practically Ten Miles.

Washington, D. C., January 15.—The Southern Railway Company will secure an addition of practically ten miles to the double track on its main line between Washington and Atlanta by the construction of second track just authorized south of Franklin Junction, Va. The new track will be connected with second track already laid to Whittle which has never been used. When the new stretch is completed the five miles of single track between Franklin Junction and Sycamore will be operated as a gauntlet under absolute block, thus giving all the protective features of double track as no train will be permitted to enter either end of the gauntlet while another is on it.

The twenty-eight mile stretch of double track extending from Montview to Sycamore will be increased to a fifty mile stretch by this addition and the completion of the twelve miles from Montview to Monroe through Lynchburg which is just going into service. The construction of the second track just authorized in connection with the double track now in use will add materially to the facilities for handling traffic over this important line.

The completion of the Lynchburg improvement gives the Southern 239 miles of double track out of the distance of 648 miles between Washington and Atlanta and the improvement between Franklin Junction and Whittle will bring the total of double track on this important highway of commerce to 249 miles.

"The Spinsters' Return."

The Philathea class of Centenary Methodist church will present a play, entitled, "The Spinsters' Return," in Neese's hall, the evening of January 26th. The members of the class having parts in the performance are holding daily rehearsals, and promise an evening of fun to those who patronize the entertainment.

Ministers' Association.

At yesterday's session of the Ministerial Association Rev. D. M. Litaker made a most helpful talk on "The Efficacy of Prayer." On next Monday morning Rev. J. E. Shenk will speak on "Hindrances to Prayer." Next Sunday at 11 a. m. there will be a complete change of pulpits by the ministers of the city.

CONSERVATION OF THE FORESTS

Will be Discussed at Convention.

Those Interested in Preventing Fires in Forests Are Invited to Attend Forestry Convention in Raleigh, Feb. 1—Several Addresses to Be Made by Specialists in Their Various Lines.

A Forestry Convention will be held under the auspices of the State Geological and Economic Survey in Raleigh on Wednesday, Feb. 1. At this meeting the problems of conserving the forests in every possible way will be discussed from every practical standpoint and it is hoped that a forest policy will be adopted at this meeting. All interested are cordially invited to attend.

Regarding the convention State Geologist Joseph Hyde Pratt says:

North Carolina is now the fourth State in the union in the amount of lumber cut, the output totalling last year 2,178,000,000 feet. This means an average cut for lumber alone of 200 board feet annually from every acre of woodland in the state. Though taking no account of the large amount of timber cut for pulp, tannic acid, tan-bark, poles, ties, etc., this annual consumption is probably twice as great as the amount being grown each year. Besides this, large, though legitimate drain upon our forest resources; is the inexcusable annual loss for carelessness and neglect, a drain on the forest that can and should be stopped, and must be stopped if our valuable wood-using industries are to be perpetuated. The damage from forest fires last year amounted to 16 per cent of the gross income for the sale of the stumpage, a loss which no business can stand very long. This damage is not a question of debate; every intelligent citizen recognizes and deprecates it. The only question is: How can it be stopped?

With the object of thoroughly discussing this question, and, if possible, formulating a forest policy for the state, a Forestry Convention has been called by the North Carolina Geological and Economic Survey to meet in Raleigh on Wednesday, Feb. 1st. A very interesting program is being arranged. Governor Kitchin will make the address of welcome, in which he will emphasize the need of forest protection in North Carolina. The chief forester of the U. S. Forest Service, Prof. H. S. Graves, has been invited to address the convention, and it is hoped that he will be on hand. One of the most interesting and instructive addresses will be that of Mr. Alfred Gaskill, the State forester of New Jersey. Mr. Gaskill has spent a great deal of time in North Carolina, and is very familiar with our conditions and the problems with which we have to deal. Since going to New Jersey he has inaugurated and put into force probably the best system of state forest fire protection of which this country can boast. His success in enforcing the laws and reducing the fire damage is phenomenal. Other well known men from all over the state, specialists in their various lines, are expected to address the convention.

Notice of Annual Meeting of the Chamber of Commerce.

The annual meeting of the shareholders of the Chamber of Commerce will be held in the Elks' Lodge room, Tuesday night, January 17th, at eight o'clock. All members are hereby notified of same, and urged to be present. The reports of the officers for the ten months ended December 31, 1910, will be submitted, and the directors for the ensuing year will be elected.

Any one interested in the future development of Greensboro is most cordially invited to be present.

After the business session of the Chamber is transacted refreshments will be served.

E. J. JUSTICE, President.
C. C. McLEAN, Secretary.

S. S. Convention.

The Summer Township Sunday School Convention is called to meet on the fourth Sunday, the 22nd day of January, at 10 o'clock at Red Hill church in Summer township. All the schools are requested to be represented in a body. The public is invited as there will be something that will interest all Sunday school workers. There will be two services, one in the morning and one in the afternoon.

SOUTHERN'S

New and Greatly Improved Service

BETWEEN

Greensboro and Raleigh

The Southern Railway announces that effective Sunday, January 22, new passenger train service will be inaugurated between Greensboro and Raleigh, one additional train to be operated in each direction. New train No. 108 will leave Greensboro daily at 7:30 a. m. arrive Raleigh 10:40 a. m. New train No. 131 will leave Raleigh daily at 6:50 p. m. arrive Greensboro 10:00 p. m. Both trains to make all local intermediate stops.

These new trains will carry baggage car, two coaches and one Pullman Drawing Room Sleeping car, the sleeping car to be operated between Raleigh and Washington, being handled between Washington and Greensboro on trains No. 31 and 32. First sleeping car will leave Washington on No. 31 Jan. 21 arriving Raleigh on new train No. 108 Sunday, Jan. 22nd and first car to leave Raleigh on No. 131 Sunday, Jan. 22nd arriving Washington on No. 32 Monday morning, Jan. 23rd. Effective same date Jan. 22nd train No. 111 will leave Raleigh 2:30 a. m. arrive Greensboro 6:30 a. m.

This gives four daily trains between Greensboro and Raleigh in each direction and in order to afford the traveling public every possible comfort there is either a Pullman car or Southern Railway Chair car on each of these four trains in both directions. It is believed that the inauguration of this through Pullman car between Raleigh and Washington will also be of considerable interest to the people of Greensboro and vicinity, as passengers for Washington can board this car at Greensboro at 10 o'clock at night arriving Washington early next morning. For any further information concerning this greatly improved service see Southern's nearest Agent, or address,

MISSION JUBILEE PLAN.

Enthusiastic Meeting of General Committee Outlines Program.

A largely attended meeting of the general committee on the Women's Foreign Missionary Jubilee in this city on February 11 to 14, was held yesterday in the Witherspoon Building. Numerically this celebration promises to be one of the biggest undertakings that Philadelphia women ever attempted. At least 2,000 people will attend the luncheon in Horticultural Hall on Tuesday, February 14. In the pageant in the Academy of Music there will be 600 people upon the stage at one time and the young women's chorus will number 200.

The chairmen of different committees reported enthusiastic district meetings, which are now being held almost daily. Mrs. J. Harrison O'Hara said that one of the greatest gains accomplished by this movement was its leading to the admission of women to the various ministers' conferences. In the past no woman was allowed to address these meetings, but now they are invited to come and present their views. This week Mrs. J. Nicholas Mitchell spoke before the Protestant Episcopal Conference, Mrs. H. S. Prentiss Nichols before the Baptist Ministers' Meeting and several others at meetings of other denominations.

The jubilee week program includes a stereopticon and moving-picture lecture by Sumner Vinton on Eastern Mission Fields, on Saturday, February 11, at 8 p. m., in the Witherspoon Hall. Missionary sermons in many churches, Sunday, February 12; conference for workers and prayer meeting with an exhibit of literature in Cavalry Presbyterian church, at 2 p. m., and the Young Women's Supper and evening meeting in the parish house of that church, on Monday, February 13; drawing room meetings in the morning, Horticultural Hall; luncheon at noon, and the pageant in the Academy of Music in the evening, Tuesday, February 14. Mrs. Harriet Newell Jones, chairman of the program committee, presided at yesterday's meeting.

Solves a Deep Mystery.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. Every bottle is guaranteed to satisfy. Only 50c. at Fariss-Klutz Drug Co.

His Opinion.

A RELIABLE COUGH MEDICINE

Is a valuable friend. Foley's Honey and Tar fulfils this condition exactly. Mrs. Charles Kline, N. 8th St., Easton, Pa., states: "Several members of my family have been cured of bad coughs and colds by the use of Foley's Honey and Tar and I am never without a bottle in the house. It soothes and relieves the irritation in the throat and loosens up the cold. I have always found it a reliable cough cure." Howard Gardner.

A STUDY IN FIGURES.

Calculations Necessary to Produce the Nautical Almanac.

It may safely be said that no one outside the publishing office has read the entire Nautical Almanac from beginning to end, but each figure of the printed almanac is in the office examined twice and read three times.

The total number of figures exceeds a million; but, great as that number is, it is trifling compared with the number of figures employed in the calculations, as the almanac figures represent "bare" results only. The moon, for instance, requires for its calculation more than a million and a half of figures, and similarly with other branches of the work, such as the sun, the planets, etc. Contrary to the general opinion, practically every figure in the book is fresh from year to year.

The tables from which nearly all the work is calculated have been originally constructed from the labors of the astronomical observer and to a large extent from the observations of the sun, moon and planets made at the Royal observatory, Greenwich. Telescopes and other astronomical appliances are conspicuously absent, as the work of the staff is purely mathematical and not observational.—London Telegraph.

FOLEY'S KIDNEY PILLS

Are tonic in action, quick in results. A special medicine for all kidney and bladder disorders. Mary C. Abbott, Wolfboro, N. H., says: "I was afflicted with a bad case of rheumatism, due to uric acid that my kidneys failed to clear out of my blood. I was so lame in my feet, joints, and back that it was agony for me to step. I used Foley's Kidney Pills for three days when I was able to get up and move about and the pains were all gone. This great change in condition I owe to Foley's Kidney Pills and recommend them to anyone suffering as I have." Howard Gardner.

Audubon and His Hair.

Audubon, the great naturalist, early in his career wore his hair very long. He wrote in his diary one day: "I wear my hair as long as usual. I believe it does as much for me as my paintings." However, in 1827 his friends succeeded in persuading him to get his hair cut according to the prevailing fashion. On March 19 of that year he wrote in his diary: "This day my hair sacrificed and the will of God usurped by the wishes of man. As the barber clipped my locks rapidly it reminded me of the horrible times of the French revolution when the same operation was performed upon all the victims murdered by the guillotine. My heart sank low." Further to express his grief, the margin of the page on which this entry was made he painted black about three-quarters of an inch deep all around.

Still Wondering.

The deaf man got out of the tram-car on to the other line of rails.
"Look out! There's a car coming!" cried the conductor.
"What?" said the deaf man.
"There's a car coming."
"What?"
Just then the car caught and knocked down the deaf man, and as he picked himself up he said:
"I wonder what that fool kept me there talking about!"—London Mail.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Robert W. Gillie, Arlington Street, Reidsville, N. C., says: "I can heartily recommend Doan's Kidney Pills as a splendid remedy for kidney complaint. I was relieved of pains through the small of my back by short use of this remedy. I did not take Doan's Kidney Pills as regularly as I should to have obtained the best results, but I nevertheless found them very beneficial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

"You Can Have a Home"

We don't care where you work, but how you live. The question is, "Have you a Home?" That is what counts.

What does it avail you if you live in a 2x4 box of a hall-room and own nothing but a trunk.

What a difference when you have your own home, rest in your own easy chair, eat from your own table the food cooked on your own stove and the pictures you care for on the walls. A Bank account is not necessary for such a home. Our liberal credit plan will do it. Start a home tomorrow.

UNDERTAKING OUR SPECIALTY

DAY 702. PHONES NIGHT 1442

DO YOU NEED OVERALLS?

If You Do, Why Don't You Make Them Yourself?—It's Dead Easy.

Many a man says that he would be glad to do chores about the house, to trim the grass or weed the garden if he had overalls.

The trouble is that when he wishes to wear overalls the stores are closed and he cannot buy them. I wonder that men do not make them for themselves.

To provide a pattern you must have an outline or perspective plan of your contour from the belt line down to the ankles. This may be obtained by sitting in wet clay and, on arising, pouring plaster of Paris in the impression. When this hardens lift the mold, lean it against the wall and obtain measurements with a tape-line. Another way is to dust talcum powder on the carpet until it is thickly coated. Then sit down on the talcum powder and carpet, thus removing the talcum from the floor where you have been. Then cut around the outlines of that impression with a sharp knife, remove the carpet so detached, and you have a pattern for one side of the overalls.

Purchase several yards of denim and cut it into the shape indicated by either pattern you have now obtained. Make two sets of these pieces and sew them edge to edge. Pockets may be made by cutting slits in the material and sewing empty salt sacks.—Wilbur D. Nesbit in Delineator.

ELECTRIC LIGHTS.

Their Use on an Important Scale Dates From 1876.

The first experimental philosopher to discover that electric light could be produced by a dry battery was Sir Humphry Davy, who in 1810 exhibited a light three inches long, between carbon points, before the Royal Society of London. But no commercial value was attached to the use of electricity as an illuminant until more than half a century later. The Centennial exhibition, held in Philadelphia in 1876, really marks the era of our present form of electric light, though electric lights had been in use abroad prior to that time. The exhibition of models and practical demonstrations of electric lights at Philadelphia in 1876 attracted the attention of scientists and capitalists in this country, and the first incandescent lamps and the first arc system were put to practical use in a small way in 1878. The Brush arc light gained favor in the beginning as the most adaptable for street lighting, and Cleveland, O., the home of Charles Francis Brush, the inventor, was the initial American city to adopt the arc system for street lighting. Since 1878 both the Brush arc system and the Edison incandescent system have developed.—Marc M. Reynolds in Moody's Magazine.

Halcyon Days.

"Alcyone, or Halcyone, the daughter of Aeolus, married Ceyx," said the Latin professor. "Ceyx was drowned, and Alcyone on learning of his fate threw herself into the sea. The gods were moved by the tragedy of the young lovers. They brought them back to life in the form of halcyons, or kingfishers, and they decreed that for the seven days from Dec. 22 to Dec. 29 the sea should remain calm while the sea birds built their nests upon it. Those seven days, the last of the year, are therefore called halcyon days—days of tranquillity, a kind of very late Indian summer. Here in America we have no real halcyon days, but the myth of Alcyone and Ceyx comes from the Mediterranean, and in that blue and gold region it is a fact that the year is ushered out by a procession of still, mild, splendid days—silent and glittering days of halcyon weather."—Washington Post.

Lifting a Child.

"I wish," said the woman who has children of her own, "that women would understand the delicate mechanism of a child. How would they like a giant to come along and suddenly drag them from the ground by one arm, as I have seen so many people do to children? When you're lifting a child lift it evenly by both arms or from the waist. Don't yank it up by a grab at one wrist and then wonder why it cries. It makes me so angry I always want to pull the arm of that inconsiderate woman hard and see if she wouldn't cry too. It's a thing that mothers and aunts and sisters ought to learn."—Philadelphia Times.

His Expectations.

"Have you 'Great Expectations?'" asked the fluffy haired damsel as she entered the circulating library and cast her large, lustrous blue eyes upon the new assistant. And he, his mental equilibrium upset for the moment by her loveliness, stammered out:

"Well—er—no, miss, I can't say exactly that, but I believe I'm heir to my old aunt, who's got something just under a hundred pounds in the post-office savings bank."—London Telegraph.

No, potash is not a variety of smokeless powder, but it may at least serve to delay the proceedings of the next Peace Conference.

If more Congressmen shall mean more laws, the suggestion that the body will be "unwieldy" is worthy of more than passing comment.

Somebody has called Standard Oil the Robin Hood of America. Poor comparison. Robin was an outlaw, but he was not merely a friend to the poor "after the fact," he was ever their friend and defender against the power and oppression of the rich, whose property alone he plundered.

The absent-minded gentleman who was whetting the lawn-mower blades on Sunday afternoon may now turn his attention to the wood-saw.

Mrs. Nation is suffering from nervous breakdown. Few "breakdowns" have served to keep her confined more than a day or two. She should be out shortly.

Did you ever hear of a governor's being inducted into office without delivering an inaugural address? That's Judson Harmon, the man who surprises people by doing things rather than promising them.

Our present legislators seem happily to have concluded that oratory is off-limits with one's political bones, and that the more certain earnest of an honorable public life hereafter is the expeditious passing of a worthy bill.

THE BALTIMORE CELEBRATION.

The fears of those papers that are talking rather skeptically of the good results of that great body of Democrats who are to foregather in Baltimore today are groundless. There will be members present burning with a desire to seize an opportunity at the mention of the name of Harmon or Wilson to launch a Presidential boom; others will be overcome with a desire to discuss the tariff; and so on throughout the list of men and measures. But the great majority of gentlemen who are to be present know that such a "break" would be even more than hazardous and certainly in bad taste, and the moment some eager and less thoughtful member breaks forth in forensic mood, he will be ruled out of order. The leading members of the party have agreed that the meeting shall contain no political significance whatever, and it was upon this agreement, it seems, that Champ Clark promised to lend his influence in behalf of the movement.

While the celebration promises to be one of no marked beneficial results, except, perhaps, to furnish a little free advertising for the city of Baltimore, it will, at the same time, be one of perfectly harmless after effects.

CHINA.

It is officially announced in China that the queue must go, and largely because it is a detriment to those who work in factories. The citizens, too, are to dress like Americans, if they choose. And now, in the face of the competition of both Japan and England, China's big war cruiser is to be built in the United States. China has ever been a nation of peace, so far as her outward relations are concerned. She has always kept away from the smoke of battle. What are the signs? Is she preparing, as some may think, to don pantaloons and equip an army and navy, in order to be ready to declare war against our Western civilization? No so. For one thing, she is jealous of Japan, who has suddenly won a position of power and prestige among the civilized nations of the earth. Another reason is, that China's former very efficient and mentally acute minister to this country has at

least on several counts, secretly fallen in love with us. He has been honored in this country, and he has seen both our treatment of the better class of his people and that of the common coolie, and he has learned that the American will respect and treat with becoming deference those Chinamen who hasten to exhibit a worthy degree of self-respect and an appreciation of law and order, intelligence and cleanliness. China resents our method of excluding her citizens. She harbors revenge, no doubt, against some Americans who curse her people in the streets of her own cities. But at the same time she watches with deep and abiding interest the thousands of Americans who are sacrificing even in many cases their very health and life for the eternal welfare of her people, and is influenced, in a degree not to be measured, by the work and teachings of the thousands of Chinese young men who come to America for their education, and who, while here, become so much imbued with the spirit of our civilization as to produce a feeling of antipathy for the slow and outworn antiquarianism of their native land.

China doesn't want to fight, but she does want recognition, and she is rapidly learning and putting into practice the surest methods of gaining it.

Rosa Bonheur's Humble Lover.

When asked why she had never married Rosa Bonheur always answered: "Nobody ever fell in love with me. I have never been truly loved." More than one man, however, really worshiped her. But she inspired such deep respect that no man seems to have dared to reveal his feelings to her. There is a curious example of this fact, taken from the humble walks of life. On several occasions Rosa Bonheur had done service for a workingman who throughout his life spent his savings in buying engravings of her principal pictures and photographs of herself. His simple dwelling was a temple to her kindness. He described himself as "the earthworm in love with a star." The person here referred to is E. A. Bauray of Clermont-Ferrand—tells me that Rosa Bonheur once asked him why he was not married, and he replied by asking her the same question. Here was her answer: "Well, sir, it is not because I am an enemy of marriage, but I assure you that I have never had time to consider the subject."—Reminiscences of Rosa Bonheur.

Paternalism in Groceries.

Paternalism with a vengeance is practiced in certain New York groceries. It is benevolent paternalism, though. "Ma wants two pounds of sugar," said a child to a patriarch in the trade. He consulted a calendar on the wall. "I guess you'd better take only a pound today," he said, "and go kind of slow on that. The week is only half gone, but you have already eaten up three-fourths of your allowance. Tell your mother so." The child promised to deliver the report on financial depression. "That is the only way on earth to keep those people from running into debt," said the grocer. "The system is common in this neighborhood. I do it at the customers' request. Every pay day women with spendthrift husbands and an extravagant disposition of their own deposit enough money with the grocer and butcher to see the family through the week. They instruct us to let no one overdraw the amount, and except in cases where extra food is actually needed we stick to our end of the bargain."—New York Times.

Even the fellow who considers himself the glass of fashion is apt to go broke.

There is more catarrh in this section of the country than all the other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

A RECORD FALL.

It Was Remarkable Not For Distance, but For Results.

Writing in 1841 of a fall from an immense altitude which did not result in death, a French observer, M. Manzini, declares that he had searched in vain in the annals of science for a similar case. We can well believe it.

The victim or patient was a tinsmith who had been engaged in putting up decorations on the occasion of the belated obsequies of Napoleon the Great in the lofty dome of the Church of the Invalides in Paris. When busy moving a ladder on the top of a high scaffolding he overbalanced himself and, in obedience to some obscure instinct, jumped clear of the ladder and the platform, crying to his fellow workmen as only a Frenchman would, "Behold me quit!" With these cheerful words on his lips he fell eighty-two feet, bounding in one place off the roof of a little dome, which caused him to describe a second parabola in the air, and landing finally, feet first, on the slate roof of a small sacristy.

Crashing through the slates, he landed astride a rafter, where he was found sitting, surprised but coherent, for he was able to give his name and address when asked for them. He had no recollection of this and became unconscious when put to bed shortly afterward under the care of the great Pasquier. His insensibility lasted a very short time, however, and he made an extraordinary rapid recovery, having sustained no apparent injuries, either external or internal. At the end of a month Pasquier found him quite well.—London Lancet.

THE SQUAW'S SHAWL.

It Must Be Just So to Suit Her Fastidious Taste.

The Indian wears his blanket on the hottest summer days. His theory is that if it keeps out the cold in winter it will keep out the heat in summer, says Ben M. Myers of Oklahoma City.

While he might not care to buy anything else expensive, the price of a suitable blanket is never questioned, but it would be difficult indeed to deceive him as to the texture of any robe.

"A squaw will imitate almost anything that pleases her fancy, but in the matter of her blanket or shawl she exhibits an unusual amount of individuality. With great care and patience she designs her blanket, and when she places the order with the mill man he does not dare duplicate it until she has had an opportunity to wear it.

"If she makes the request that it shall not be duplicated her wishes are regarded, because it is the one article she possesses in which exclusiveness is much coveted and also because what would please one squaw would not appear at all attractive to another.

"The lightweight shawl or blanket is thrown over the head of the squaw, and unless she is able to purchase a bright colored silk kerchief it will serve as her only bonnet as well. It is just as common a sight now to see the squaw securely bound on the back of its mother by a portion of her blanket as it used to be to see the wee head of the Indian babe peeping from the teakus, or frame cradle."—Washington Herald.

Confidence In the Mails.

Having sent a strong box key by mail in an unregistered letter, a clerk was told by his employer that the key "arrived O. K." but that the means of transportation adopted showed too much confidence. In answer the clerk said, "Ever since a New Year's eve incident of two years' standing my confidence in the postoffice is great." And pressed for an explanation he said: "That evening, or early in the morning rather, a man came out of a restaurant rather the worse for celebrating. He had a wallet in his pocket containing considerable money and was uncertain as to the honesty of his companions. He went to a letter box, forced the wallet through the slot and continued to make a night of it. It required considerable red tape to recover his property, but he got it."—New York Tribune.

Tippling and Treating.

There are two practices in this country that are being justly condemned. One is tippling and the other treating. To be sure, we are not responsible for originating either. Away back in the days of Queen Elizabeth every coffee house had a box bearing the inscription, "To Insure Promptness," hence T. I. P. Neither is treating an innovation. Some of the Caesars, so says history, used to get huffy when their guests could not see the bottom of the glass often enough. But both have got such a hold on Americans that they have come to be recognized as national habits, and the latter sometimes as a national evil.—Indianapolis News.

A Willing Witness.

"Did his actions have an air of verisimilitude?" the lawyer asked the witness.

"What was that, sir?"
"I say, did his conduct wear an air of verisimilitude?"
"Oh," replied the witness. "Sure! He was verisimilitudin' all round the place."—Saturday Evening Post.

Look For the Hose With This Mark on the Toes

There are many kinds of guaranteed hosiery but they are all imitations of the original "Holeproof."

When your husband goes out to buy socks, tell him to insist on "Holeproof"—tell him to look on the toes for our trademark.

This means more than you think—it means that if any holes appear within six months we give you new hosiery free. But that is not all, the hosiery itself is more stylish and comfortable than any other on the market.

FAMOUS
Holeproof Hosiery
FOR MEN WOMEN AND CHILDREN

The makers use only the finest and softest cotton from Egypt and the Sea Islands. They pay 63 cents a pound, but could buy ordinary cotton at 12 cents a pound.

The yarn is three-ply in the body and doubled to six-ply in the heels, toes and knees. Common hosiery is made of two-ply yarn throughout yet it costs you as much as "Holeproof."

Comfort is supreme in "Holeproof"—the fabric is as soft and smooth as silk. Style is increased for the hosiery is shaped to fit the ankle like a glove fits the hand.

Men's hose come in eleven attractive colors and women's in six. Price \$1.50 to \$3 a box of six pairs. Children's hose, in black and tan, at \$2 a box of six pairs. Please come in and see this hosiery to-day—it costs no more than the ordinary.

CAR STEPS AND HOBBLES.

Barnard Teacher Shows How to Overcome a Difficulty.

Members of the fancy dancing class of Barnard College now rush to the aid of their sisters who insist on the hobble skirt. The girls say they are only doing it out of duty to sex, but everyone knows the members of the low clad tootsies and the high and ample skirt in action in dancing lessons go as far to the other extreme when out of school and wear high boots and the tightest of skirts.

The extreme of leg action between the hobble and the flowing skirts inspired the girls, and yesterday, away from the scrutiny of their teacher, they improvised what might be remotely called the back end of a street car. The only way it resembled that was the fact it was at the average height of a step, just below the knee. The supposed step was made of heavy volumes from the library, tomes the girls most despised because they had to consult them after history lessons. Then a hand made of ribbon was tied around the hem of each girl's skirt, binding it to the tightest of hobbles, and she was ordered to ascend the imagined car step just as gracefully as Barnard would have her, or at least as gracefully as she could. One after the other tried it with discomfiture and amid jeers, when into the room daintily tripped their associate teacher of fancy dancing, and in the tightest of hobble-dehays.

"Why girls!" she said. "I meant to show you before. This is the only way to hold up Barnard's reputation in the street."

Then, instead of advancing to the pile of books and lifting a tiny shoe forward, as if to administer a swift kick, she stood with her left side to the books, raised her skirt on that side with a gentle rustle, elevated and placed her left foot—all else unseen—on the supposed step, followed it with the right, and was there.

MOSCOW CATHEDRAL.

Fantastic Looking Edifice Erected by Ivan the Terrible.

One of the most extraordinary and fantastic Christian places of worship in the world is the Cathedral of Moscow, known as Vasilj Blajenni, strange not only in outline and conception, but even stranger in its history. No one knows the architect's name, but the story goes that the czar ordered his eyes to be put out directly the church was completed, so that he should never be able to surpass his work. The idea of the building was inspired by the wickedest and maddest monarch who ever sat on a throne—Ivan the Terrible, czar of Muscovy.

The architecture is in every respect extravagant and barbaric, and the coloring is garish in the extreme. It has nine chapels, roofed by nine cupolas, each different and each stranger than the other. One resembles a pineapple, another a melon, a third is said to ape a hedgehog in its appearance, and the rest are more or less grotesque. Some are gilt; others are painted in brilliant hues. Indeed, the only description is that it is a nightmare of a church, the fitting legacy of a ruler who grilled his counselors in frying pans and clothed his subjects in bearskins in order that trained dogs might worry and tear them to pieces.—Strand Magazine.

Saves Two Lives.

"Neither my sister nor myself might be living today, if it had not been for Dr. King's New Discovery," writes A. D. McDonald, of Fayetteville, N. C., R. F. D. No. 8, "for we both had frightful coughs that no other remedy could help. We were told my sister had consumption. She was very weak and had night sweats but your wonderful medicine completely cured us both. It's the best I ever used or heard of." For sore lungs, coughs, colds, hemorrhage, la-grippe, asthma, hay fever, croup, whooping cough, all bronchial troubles, its supreme. Trial bottle free. 50c. and \$1.00. Guaranteed by Fariss-Klutznick Drug Co.

A Promised Failure.

"And you call it a society play?" said the caller.
"Precisely," said the playwright.
"Well, it will not be a success."
"Why not?"
"Because the leading lady changes her dress only twice."—Exchange.

The Monkey and the Book.

A story is told of an eminent naturalist (I forget his name) who was hoping to develop the intelligence of a monkey to whose education he was devoting himself. One day he saw with delight that the monkey was sitting at the other end of the room turning over the leaves of a valuable book on entomology and looking at the plates with apparent interest. But on going nearer he saw, with dismay, that the monkey was turning over the plates in order that when he came to a particularly large beetle or butterfly he might pick it out and eat it. As the paper could not have had a nice taste, I think he may have been actuated rather by the fun of the thing than by a mere depraved appetite. Perhaps he was verifying the like method of learning among the philosophers of Laputa.—London Spectator.

The census would be much larger if all the men who lead double lives were found out.

OLD PEOPLE

Made Strong by Vinol.

A prominent Boston lawyer says: "My father is eighty years of age and he owes his present strength and good health to Vinol."

"During the last two trying winters he never had a cold, and was able to walk farther and do more than for years."

"I think Vinol is perfectly wonderful. It certainly is the greatest blood-making and strengthening tonic for old people I ever heard of."

We wish every feeble old person in this vicinity would try Vinol on our agreement to return their money if it fails to give satisfaction. Fariss-Klutznick Drug Co., Greensboro, N. C.

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."—Chas. H. Halpern, 114 E. 7th St., New York, N. Y.

ORDER OF PUBLICATION.

North Carolina.

Guilford County.

John R. Pike

vs.

Eliza Pike

It appearing to the satisfaction of the Court by an affidavit that a summons has been issued in favor of the above named plaintiff against the above named defendant to obtain a decree for dissolving the bonds of matrimony now existing between the said plaintiff and the said defendant, and it further appearing that the said defendant cannot, after due diligence be found in the State of North Carolina; It is now ordered that the defendant Eliza Pike take notice that an action entitled as above has been commenced in the Superior Court of Guilford County to obtain a decree dissolving the bonds of matrimony existing between the said plaintiff and defendant, and the said defendant will further take notice that she is required to appear at the next term of the Superior Court, to be held in Guilford County, at the Court House in Greensboro, on the 17th day of February, 1911, there and there to answer or demur to the complaint in the said action or the plaintiff will apply to the Court for the relief in said action demanded.

This the 20th day of November, 1910.

A HARRIMAN TRAIT.

His Erratic Impulsiveness and Some Examples of Its Workings.

"Tip," in New York Press.

Eddie Harriman is some time dead on his long career of being dead forever; after the king of them all, the great Morgan, no living man is more talked about still among bankers and brokers than the dead Harriman. With all his cold-blooded power of analysis and his deliberate perception, in action he was impulsive to a degree. One day out at Darden he gave instructions that a chauffeur should speak on the telephone. Two or three minutes later he asked why the chauffeur had not talked with him. An inquiry over the wire to the garage showed that the chauffeur had jumped into his car at the first message and started hot pace for the house. "Well," said Harriman, "when that fellow arrives here he will be out of a job." One of his secretaries ventured the suggestion that if this happened there would be a car there with no one to drive it. "Now, there is something in that," assented Harriman. "Telephone to the car people to send me out another chauffeur right away; then let the other fellow go."

Without a moment's notice Harriman would give an assistant instructions to get upon a train and go thousands of miles, with perhaps only a few minutes to board it. To one of his big lieutenants he said one forenoon: "Catch the 2 o'clock for Los Angeles"—or whatever it was. "And, oh," he added, as the other was hastening out, "take So and So along." "But I don't think," was the reply, "he wants to go." Harriman's answer was unequivocal: "Take him, anyhow."

Harriman had an almost supernatural instinct for knowing what was going on and who was doing it in the mysteries of stock manipulation. Once, when Southern Pacific had been going up fast, Harriman and various banking houses buying in concert, he called up on the telephone one of his private brokers. "Somebody is selling," he said. "Yes, sir," was the answer. "Well, hand the market 25,000 for me." Immediately he called up the head of a banking firm much interested in the market. "Whos selling Southern Pacific?" he asked. "I don't know; we haven't been able to find out," was the answer. "I'll tell you," snapped Harriman. "It's your house," and he cut off the connection before any reply to him could be made.

Mr. A. G. Coffin says that when he went home Saturday night that he thought, and all his people thought, that he had pneumonia. He rubbed a box of Mother's Joy on his chest, as directed, and went to sleep, and he says the next morning he was entirely well. And he fully believes it broke up a case of pneumonia. All who doubt this will ask Mr. Coffin. For sale by Conyers & Sykes.

He Understood.

"The trouble with you is that you don't understand the difference between socialists and anarchists."

"Oh, yes, I do. Lots of socialists are willing to work."—Chicago Record-Herald.

The Three Great Channels.

Every human being—man, woman and child, hero and convict, neurasthenic and deep sea fisherman, athlete and invalid—needs the blessing of God through three, and only three, great channels—responsibility, recreation and affection; work, play and love. With these any life is happy in spite of sorrow and pain, successful despite the bitterest failures. Without them a man breaks his heart, severs his conscious connection with God. If you want to keep a headstrong, fatuous youth from overreaching himself you try to give him responsibility, recreation and affection. If you want to put courage and aspiration into the gelatinous character of a street walker or the flickering mentality of a hysteric you labor to furnish just the same trio—work, recreation and affection. In every case the healing power which you want to give is real life, and real life means just these three things. The same needs are fixed for all of us and the same all-sufficing bounty in the supply if we can get and keep in touch with it—Atlantic.

Mice For Whooping Cough.

A fairly alarming relic of medieval nostrums came to my notice recently. A mother was discussing with her housekeeper the probability of her children taking whooping cough, which was then prevalent in the community. The housekeeper, a most dependable, valuable helper, of more than average good sense and judgment, said: "Mrs. Black, if you'll let me I can keep your children from having whooping cough. I've kept lots of children from having it, but I wouldn't do it without telling you first."

"Well, Martha, what is it?"

"You catch a live mouse and kill and dress it and stuff it and bake it and feed it to the children. It isn't bad to take, and of course they don't know what it is. That would spoil the charm."

To my friend's exclamation of horror she replied with conviction, "I've given it to lots of children, and never one of them had whooping cough."—Mary Newell Youtz in Designer.

When Wagner Died.

"Nearly all the visitors to Venice," says a letter from that city, "go to the Vendramin palace to see the place where Wagner lived nearly a year and where he died in February, 1883. We who were here on that glorious spring day when they bore the master away, who remember the long line of mourning barges, wish that the palace could have among other mementos a picture of that occasion. The great state barge contained Anton Seidl's orchestra, and after it came barges with singers, nobles, great men and women, all in deepest mourning. This is the scene which some artist should fix on canvas. But, alas, he who saw it could never know what it represented unless he had been here at the time. The music, under Seidl and Neumann, and its effect on the mourning throng no brush could portray."

Last Revolutionary Survivor.

The last survivor of the Revolutionary war was John Gray, who died in Noble county, O., aged 104 years, on March 26, 1898. He came to the Buckeye State early in its existence. For some years before he died he drew an annual pension of \$500 from the government. General John A. Bingham having got a special act through congress for this. Gray's father was killed at the battle of Stillwater and he took his place in the army, being only sixteen years old then. He served through the remainder of the war. His military record is on file at the office of the state commissioner of soldiers' claims.—Columbus Dispatch.

The Bull of Perillus.

Perillus of Athens is said to have invented for Phalaris, tyrant of Agriguntum, 570 B. C., a brazen bull which opened on the side to admit victims who were to be roasted by the fire which was built underneath. The dying groans of the sufferers resembled closely the roaring of a mad bull. Phalaris greatly admired the invention and by way of test roasted the inventor first. Later the populace rose in rebellion and burned Phalaris.

Faint?

Have you weak heart, dizzy feelings, oppressed breathing after meals? Or do you experience pain over the heart, shortness of breath on going up-stairs and the many distressing symptoms which indicate poor circulation and bad blood? A heart tonic, blood and body-builder that has stood the test of over 40 years of cures is

Dr. Pierce's Golden Medical Discovery

The heart becomes regular as clock-work. The red blood corpuscles are increased in number—and the nerves in turn are well fed. The arteries are filled with good rich blood. That is why nervous debility, irritability, fainting spells, dizziness and are overcome by this alternative extract of medicinal roots put up by Dr. Pierce without the use of alcohol. Ask your neighbor. Many have been cured of scrofulous conditions, ulcers, "fever-sores," white swellings, etc., by taking Dr. Pierce's Discovery. Just the refreshing and vitalizing tonic needed for excessive tissue waste, in convalescence from fevers or for run-down, anemic, thin-blooded people. Stick to this safe and sure remedy and refuse all "just as good" kinds offered by the dealer who is looking for a larger profit. Nothing will do you half as much good as Dr. Pierce's Golden Medical Discovery.

RACKING COUGH

Do you cough so hard that, seemingly, you are tearing your throat and lungs to pieces? Have you shortness of breath, and rattling and wheezing in the chest? Take care! Get Dr. Bull's Cough Syrup at once, before too late. It will cure the cough, and soothe the racked throat and lungs.

Dr. Bull's Cough Syrup

Mrs. Katherine Black, 128 E. 9th St., Flat 2, Cincinnati, O., states: "I caught cold which settled in my chest, and also threatened my lungs and caused me to cough very much, etc. By taking Dr. Bull's Cough Syrup I was assured of a good restful night; and, three bottles of the Syrup cured me of a very troublesome cough and cold."

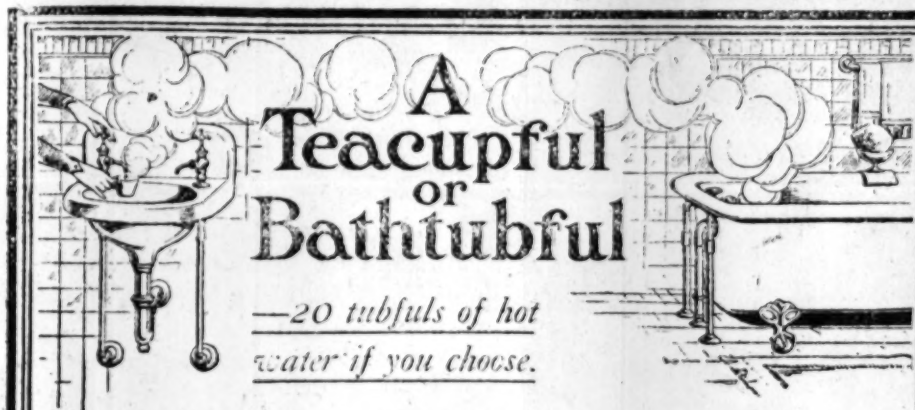

TRIAL BOTTLE FREE.

To convince you that Dr. Bull's Cough Syrup will cure coughs and colds we will send at once a trial bottle, free, if you will write for it and mention this paper.

Very fine copies of the masterpieces of foreign and American artists, owned by these galleries, have been procured and will be exhibited. Members of other departments are cordially asked to share these opportunities of becoming familiar with the great pictures to be found in the museums in the United States.

The Important Problem

confronting anyone in need of a laxative is not a question of a single action only, but of permanently beneficial effects, which will follow proper efforts to live in a healthful way, with the assistance of Syrup of Figs and Elixir of Senna, whenever it is required, as it cleanses the system gently yet promptly, without irritation and will therefore always have the preference of all who wish the best of family laxatives.

The combination has the approval of physicians because it is known to be truly beneficial, and because it has given satisfaction to the millions of well-informed families who have used it for many years past.

To get its beneficial effects, always buy the genuine manufactured by the California Fig Syrup Co. only.

COMMISSION PLAN SUCCEEDS IN WEST

Is Ideal Form, Mayor of Des Moines Says In Letter.

Norfolk Landmark.

Secretary E. A. Bilisly, of the Commission League, yesterday received a letter from the Mayor of Des Moines, Iowa, testifying to the beneficial results of commission government in that city.

The letter says: "Our city is making great progress under the new form of government and I believe I am conservative when I say that fully 95 per cent. of our citizens would not change back to the aldermanic system under any consideration. In my opinion, the commission form of government is the ideal in city government."

"Yours very truly,
"JAMES R. HANNA,
"Mayor."

The following letter from T. F. Ziegler, city clerk of Iowa, Kansas, was also received yesterday:

"Your inquiry addressed to the mayor of this city has been handed me for reply and will say that we have been operating under the commission form of government for nearly a year. We are not, however, operating under a charter but under chapter 82 of the laws of the State of Kansas for the year 1909."

"This city is, as far as I am advised, pleased with the present form of government and there is no doubt that the city will get more efficient service under this plan than under the old council system. There has been a direct saving in the expense of conducting the city's business and people having business with the commissioners can take their matters to the commissioner in whose division the business might be and can get immediate results. There is no referring to committees with exasperating waits and delays as under the old system."

"We believe that the present plan of buying through a purchasing agent that he is in closer touch with the needs of the city and is in better position to buy at right prices than the old haphazard system of purchasing municipal supplies. Under our laws the commissioners can not incur a debt."

"This feature alone is worth a great deal to the ordinary municipal government. Our city had been going into debt several thousand dollars per year over and above the revenue from taxation. This year we will be able to pay the expenses of the city out of the income derived from taxation. This of itself will be a matter of \$10,000 to \$15,000. The plan is certainly successful here."

The finance committee of the Municipal Government League will begin today to solicit funds to bear the expense of the educational campaign that is to be conducted by the organization in Norfolk.

Trains Delayed.

Train No. 38 was delayed three hours last night on account of a wreck in South Carolina, a freight derailment blocking the track. The train passed here this morning shortly after one o'clock. No. 12 was delayed two and a half hours, on account of waiting on the Salisbury connection with the Asheville division.
